

Comparison of annual maintenance for a 1 point monitoring system

PureAire cell recharge

(Recommended twice per year)

Electrolyte \$ 19

Membranes \$ 15

Total \$ 68 per 1yr

*Not effected by temperature,
Humidity or barometric pressure
changes.

Disposable cells

(Recommended once per year)

Replacement cells
@ average \$300 /year per
sensor cell

Total \$ 300 per yrs.

*Requires 1-3 month calibrations
and drifts to changes in Humidity
barometric pressure and temps.
