

Strobe Warning Light

Item#- 42005- Red - Strobe only, No Horn

Product Summary

The Strobe Warning Light is a compact strobe light designed for use with our complete line of oxygen and carbon dioxide monitors, as well as our toxic and combustible gas detectors. It is ideal for use in locations where oxygen or toxic gas levels must be at safe thresholds for personnel working in the area. It is well suited for use in environments such as freezers, hospitals, laboratories, pharmaceutical, the oil and gas industry, and any locations where oxygen or toxic gas levels must be monitored.

Facilities That Need This Product

- *Pharmaceutical Manufacturers*
- *Laboratories*
- *Hospitals*
- *Cryogenic Locations*
- *Food Processing*
- *Universities*

FEATURES

- 100,000 Candela Peak
- Flash Rate/Minute 88
- 0.08 amps
- 24VDC
- 4,000 Hour Strobe Tube
- Indoor/Outdoor Use
- Type 3R Enclosure
- UL and CSA Certified

Why choose PureAire?

PureAire Monitoring Systems, Inc. is a leader in oxygen monitoring and gas detection. For over 20 years, we have dedicated ourselves to the safety of our clients, and the customers they serve, by manufacturing monitors that are long-lasting, accurate, and reliable. PureAire takes pride in providing exceptional customer service, along with 24/7 availability to our technical service department.

What is a Strobe Warning Light?

A strobe warning light is used to provide visual safety notice in locations where personnel need to be alerted to unsafe conditions.

What Monitors can be connected to a Strobe Warning Light?

The strobe warning light is compatible with PureAire's line of oxygen monitors, toxic and combustible gas detectors. It can be connected to a programmable logic controller (PLC) to provide visual alerts throughout the facility.

Easy to Use

Simply secure a monitor to the wall, connect a length of cable to the strobe, and plug in the monitor. After a brief start up, the monitor will begin measuring the oxygen or toxic gas levels. In the event that air quality levels reach an unsafe level, the strobe will alert personnel to evacuate the area.

Top Advantages of a Strobe Warning Light

Strobe Warning Light

The strobe warning light provides safety notification when conditions reach an unsafe threshold. The compact strobe light is compatible with PureAire's line of oxygen monitors, and toxic and combustible gas detectors.

Easy To Use

The strobe easily connects to PureAire's complete line of oxygen monitors, toxic and corrosive gas detectors to provides constant monitoring with little to no adjustments, saving you time and money while allowing the monitor to operate seamlessly.
