

PureAir CloudConnect

ITEM#:96004- Wi-Fi Cloud& Ethernet Connection- Includes Wi-Fi Software, Ethernet Add on Modules, and 12-month Service Subscription*

ITEM#: 96005- Cellular Cloud Connection- Includes Cellular Software, and 12-month Service Subscription*

Product Summary

PureAir's CloudConnect provides for Internet connectivity (with Cloud storage capabilities) for our full line of Oxygen and Carbon Dioxide Monitors, as well as our Toxic and LEL Combustible Gas Detectors. The CloudConnect device sends continuous gas concentration data to secure Cloud storage, and it provides for immediate alarm and system information via text, phone call, or email.

In the event of disruption in Internet connectivity, CloudConnect contains a feature that will store data locally for two hours during such an outage, with the stored data uploaded to the Cloud once connectivity is restored.

Remotely monitor oxygen or other gas sensor status 24/7, and receive real-time alerts when gas concentration levels require attention. All monitoring data is stored safely and securely in the Cloud, retrievable for viewing at any time, and configurable for compliance reporting.

Facilities That Need This Product

- *Food and Beverage*
- *Research and Development*
- *Healthcare*
- *Laboratory*
- *Pharmaceutical*
- *Oil and Gas Refineries*

FEATURES

- Safe and secure Cloud storage
- 24/7 gas level monitoring
- Data Logging Capabilities
- View live sensor data
- Two hours of data storage and preservation in case of Internet disruption
- WiFi, Cellular or Ethernet connectivity options
- Receive real-time alerts via text, phone call, or email
- Gas monitoring data viewable and configurable for compliance reporting

Why choose PureAir?

PureAir Monitoring Systems, Inc. is a leader in oxygen monitoring and gas detection. For over 25 years, we have dedicated ourselves to the safety of our clients, and the customers they serve, by manufacturing monitors that are long-lasting, accurate, and reliable. PureAir takes pride in providing exceptional customer service, along with 24/7 availability to our technical service department.

Why a PureAir CloudConnect?

PureAir's CloudConnect lets users view gas concentration levels live, set up system alerts, and record and store gas equipment data which is viewable on any Internet-connected device, including desktop, tablet, or phone.

What Monitors can be connected to a PureAir CloudConnect?

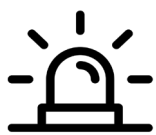

The CloudConnect is compatible with PureAir's full line of oxygen and carbon dioxide monitors, as well as our toxic and corrosive gas detectors.

Easy to Use

The CloudConnect software provides a private, secure link to create a PureAir CloudConnect account. The link includes step-by-step instructions to complete your account setup.

* Twelve-month subscription renews automatically

Top Advantages of PureAire CloudConnect

PureAire CloudConnect

PureAire's CloudConnect is compatible with our complete line of Oxygen and Carbon Dioxide Monitors, Toxic and Combustible Gas Detectors. CloudConnect lets users view live sensor data, set custom alerts, and receive real-time gas monitoring information. Store and retrieve all monitoring data from a dedicated, secure Cloud account.

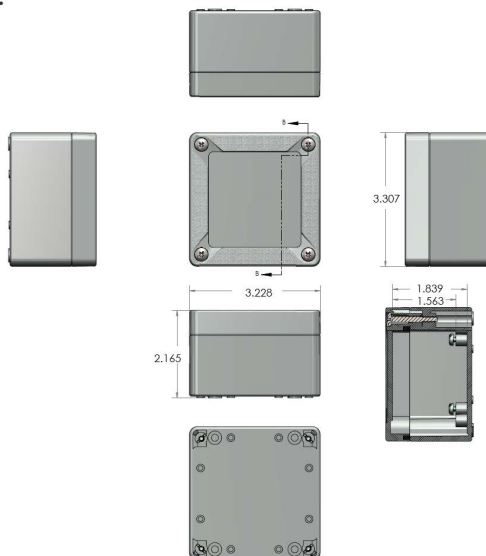

Data Logging Capabilities

Gas monitoring data is logged every 5 minutes, 24/7, viewable and retrievable anytime. Monitoring data can be configured and downloaded for compliance reporting.

Easy To Use

The CloudConnect works seamlessly with our Monitors and Gas Detectors. Monitoring data is accessible from Internet-connected devices such as a desktop, tablet or mobile phone.
