

## PureAire Gas Detection May Newsletter

**NOW AVAILABLE**  
**Two-Year Extended Warranty on Oxygen Monitors**

PureAire Monitoring Systems now offers an optional Extended Two-Year Warranty on our full line of Oxygen Monitors. The Extended Warranty provides an additional two years of warranty coverage beyond the initial three-year Warranty, for a total of five years of product protection against defects in material and workmanship. The Extended Warranty is available on all new product purchases, as well as on previous purchases that are still covered under the original three-year product Warranty.

Get peace of mind with an extra two years of warranty protection on PureAire's complete line of Oxygen Monitors.

## Oxygen Deficiency Monitors - An Investment in Safety

The Occupational Safety and Health Administration (OSHA) defines an environment in which oxygen levels fall below 19.5 percent as an oxygen-deficient atmosphere, which should be treated as immediately dangerous to health or life. When there is not enough oxygen in the air, persons within the affected area may become disoriented, lose consciousness, or even suffocate due to the lack of sufficient oxygen. Fortunately, by utilizing a top-quality oxygen deficiency monitor, facility managers can maintain stringent processing requirements, as well as protect the health and safety of their personnel.

## PureAir Google Reviews

"We had an emergency situation where we needed an Oxygen sensor for an MRI lab as it was missed in the plans and specifications. We found your company online and decided to call. We successfully got the product in our hands 24 hours later. I can't thank Denise and Pure Aire enough for the support, help and sense of urgency. Thank You!" - Chris G.

"Recently we added two PureAir O2 monitors in areas where we use a lot of nitrogen gas. The air sensors installed quick and easy and are working great." - Brett S.

*"We have a total of 9 PureAire models TX-1100-DRA oxygen monitors installed. Most have been running for many years without incident or maintenance. Customer service when needed has been excellent, with quick support and service Would not hesitate to recommend." - Matt R..*

*"During a laboratory renovation, we utilized the 8 channel controller (99058) integrated with the 1100 DRA oxygen detectors(99016) also, we included the horn strobes(42002) and remote digital display (99091). This system installed with ease and has a very user-friendly program. PureAire has multiple apparatuses for various systems and applications. I highly recommend PureAire Monitoring Systems and most definitely will revisit their product line for future projects." - Mr. Yzig*

*"Solid product, easy installation, start-up, and ease of operation! Truly a plug and play application!"*  
- Richard R.
